

Policy Statement on Supplier Diversity

At Netmonster, our goal is to fulfill our customer's needs and expectations by utilizing only the best available resources. Given that our customers are so diverse, we recognize that our company must embrace diversity in all aspects of our business. Netmonster is committed on the ongoing identification of small and diverse suppliers that can add value to our businesses and help us achieve our long-term growth objectives. From talented people working in our organization to the right partners to help us deliver the products and services our customer want – we have seen the power that diversity has in building customer loyalty and satisfaction, which helps us grow our business.

In particular, we have increased our commitment to our Supplier Diversity program, which provides certified minority- and women-owned and operated companies an equal opportunity to do business with us. In doing business with women-owned business, minority-owned businesses, Netmonster is becoming:

- the best place to work by embracing diversity and inclusion into its business practices;
- the best place to invest by growing our sales of diverse products and services and ultimately impacting economic growth in the local communities where minority- and – women owned businesses reside.

No matter which segment of the business community they represent, our suppliers must share our passion for serving our customer better than anyone else can serve them. We are constantly evaluating vendors to find the industry experience, insight and capability needed to deliver products that reflect the diversity of our customer base. We seek out suppliers who are focused on excellence in customer service and product quality, as well as have a solid foundation for production capacity, target markets and financial stability. Diverse suppliers that receive top consideration and will gain the most from a partnership with Netmonster are those that fulfill marketplace at an acceptable cost to our business.

While we already have a strong network of diverse suppliers, we continue to look for ways to extend our reach into the community for qualified minority- and women-owned and operated businesses. If you are a certified diverse supplier and would like to be considered for or learn more about our program, please email us at jmojica@netmonsterpro.com.

Sincerely,

John R. Mojica
CEO and Principal Staff Manager
